I am a first student at the Queen Mary University of London studying Computer Science with Industrial Experience. I have always had a passion for Computer Science and I wish to develop my skills further.

Key Skills

- Organised
- Punctual
- Determined, and wants to improve.

Throughout my education, I have had a passion for Computer Science and have gradually improved my skills. I am learned to code in Python and am studying Java too. I have attended numerous lectures to grasp an understanding of what entails being a computer scientist.

Education

2013-2018: Highbury Grove Secondary School

GCSE Results

Maths (9)
English Literature (8)
English Language (8)
Science - Double (8-7)
